# Connect Mirakl to M2E

Mirakl Basics · https://docs.m2ecloud.com/docs/connect-mirakl-to-m2e/

Follow the steps below to link your Mirakl seller account with M2E Multichannel Connect.

## Step 1. Select your marketplace

In the **Select marketplace** section, choose your Mirakl marketplace. M2E supports 450+ Mirakl-powered marketplaces, such as AUTODOC, B&Q, Best Buy, Rein, and more. Use the **Search marketplaces** field to find yours quickly.

ℹ Don't see your marketplace in the list? Select **Custom marketplace** and enter your operator URL manually by following step 2. Otherwise, skip to step 3.

## Step 2. Enter the Operator URL (custom marketplace only)

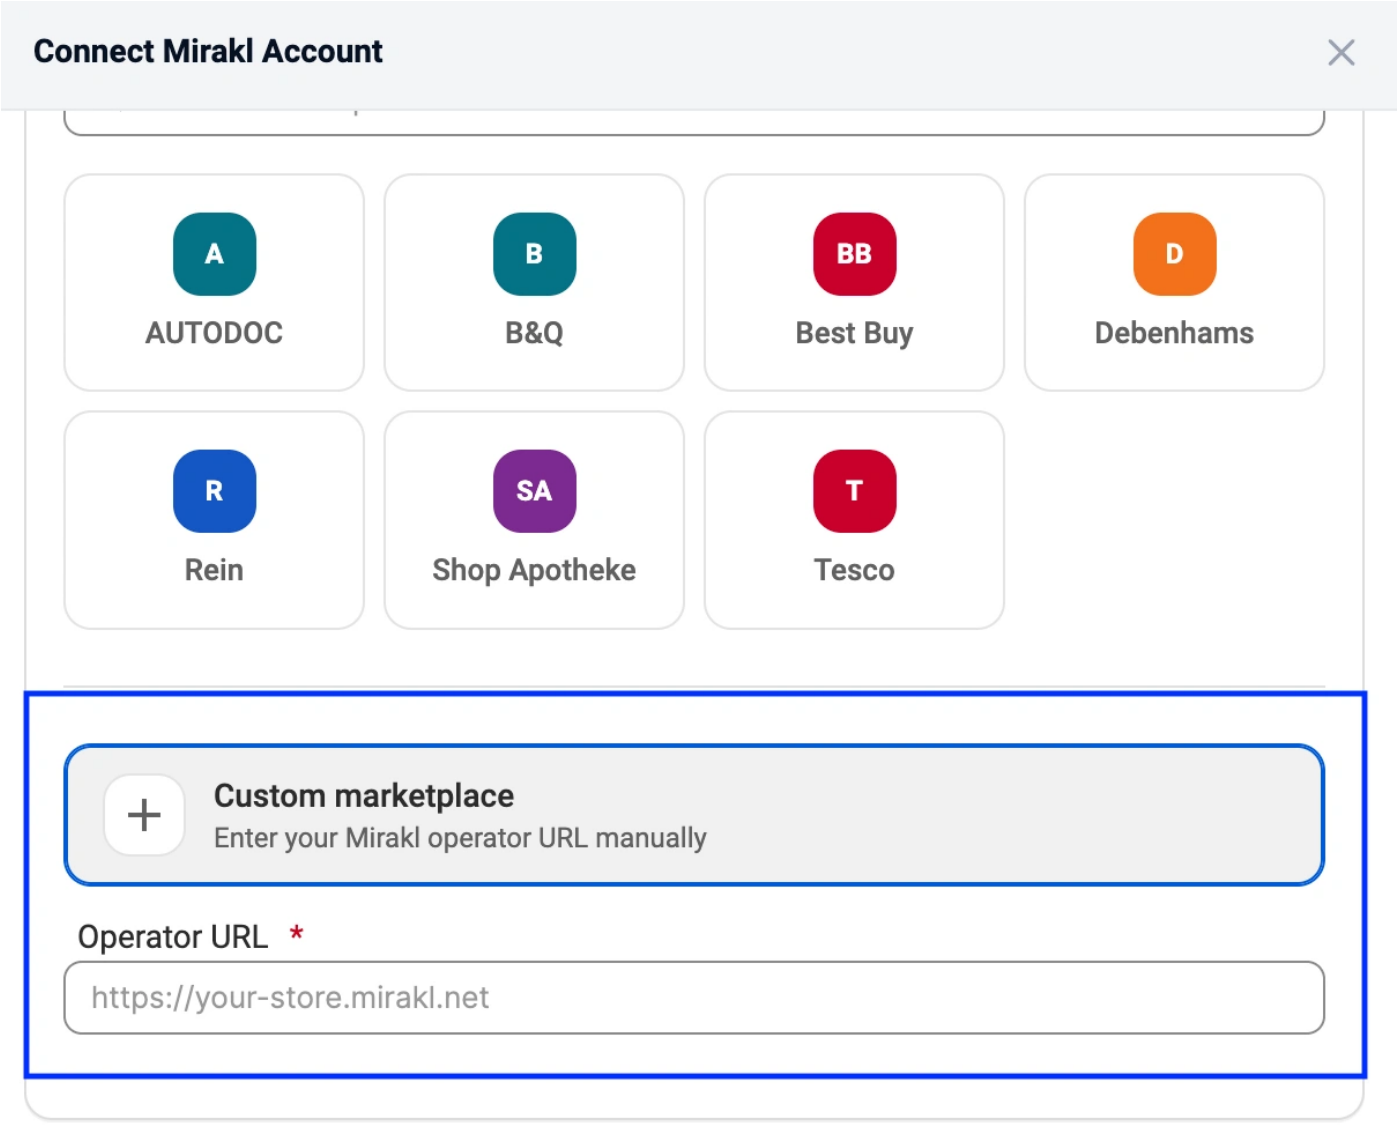

If you've selected **Custom marketplace**, provide the **Operator URL**:

1) Go to your Mirakl Seller Admin.

2) Copy the URL from your browser's address bar.

> ⚠ Make sure to **copy only the domain part, not the full path**, up to the first slash after the domain. The URL should be in the following format: `https://{seller-admin-base-url}`
>
> For example, if your browser shows `https://seller.mirakl.net/shop/account/`, copy only `https://seller.mirakl.net`.

3) Paste the URL into the **Operator URL** field.

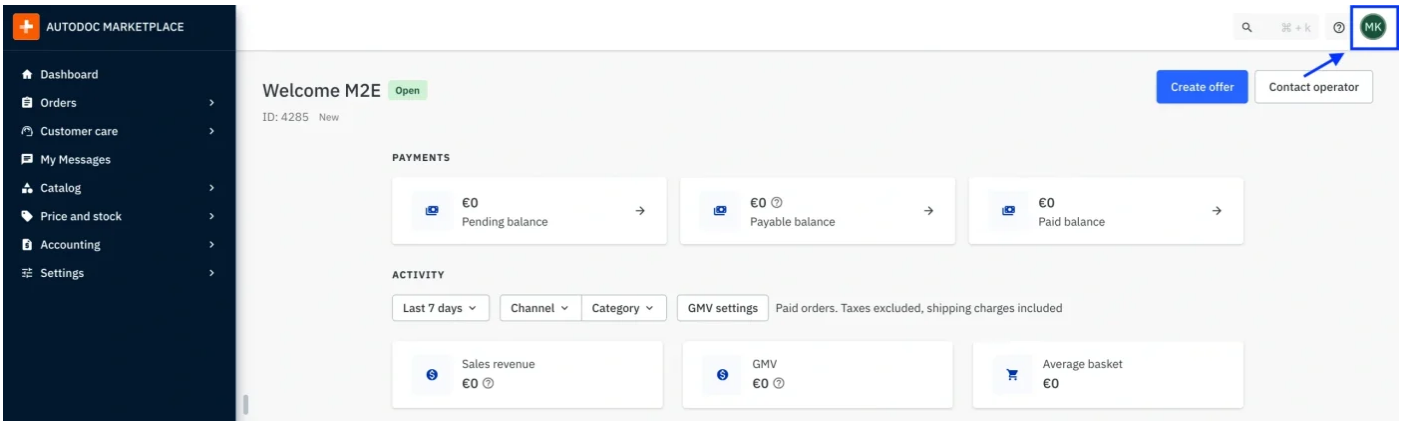

## Step 3. Provide API key

Once you've selected a marketplace, scroll down to the **Credentials** section where you need to provide the API key.

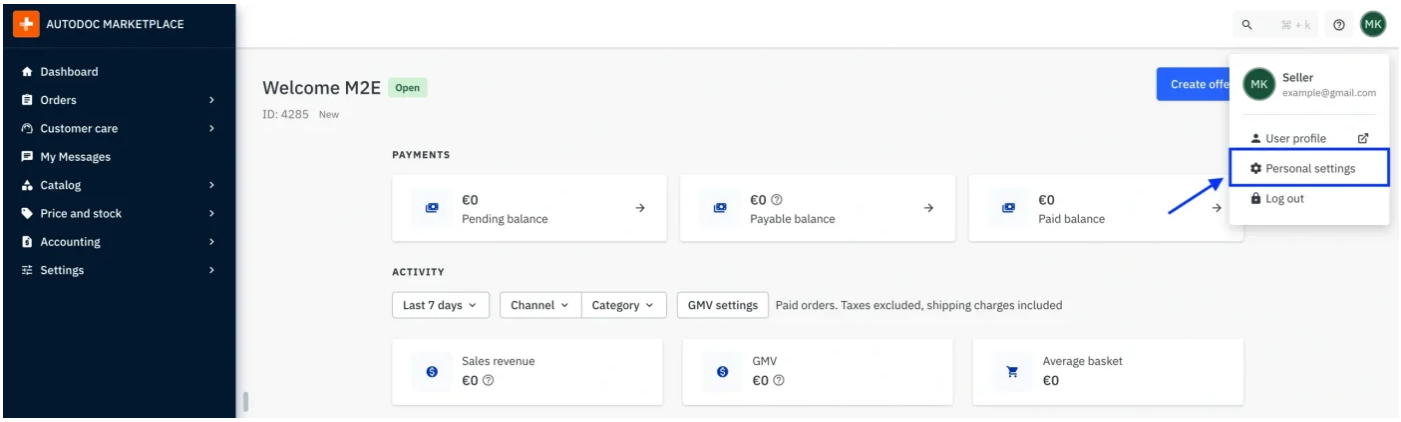

To get your API key:

1) Log in to your Mirakl Seller Admin (seller back office).

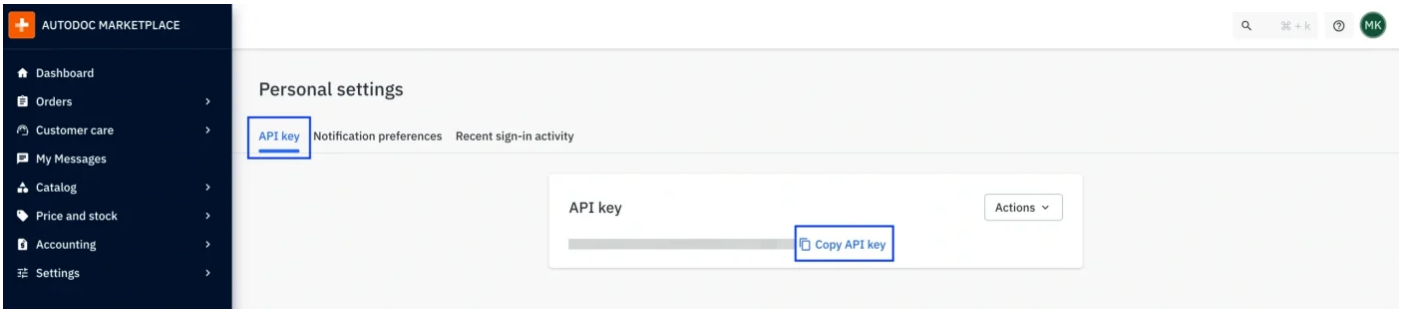

2) Click your **profile picture** in the top-right corner.

3) Select **Personal settings** from the drop-down menu.

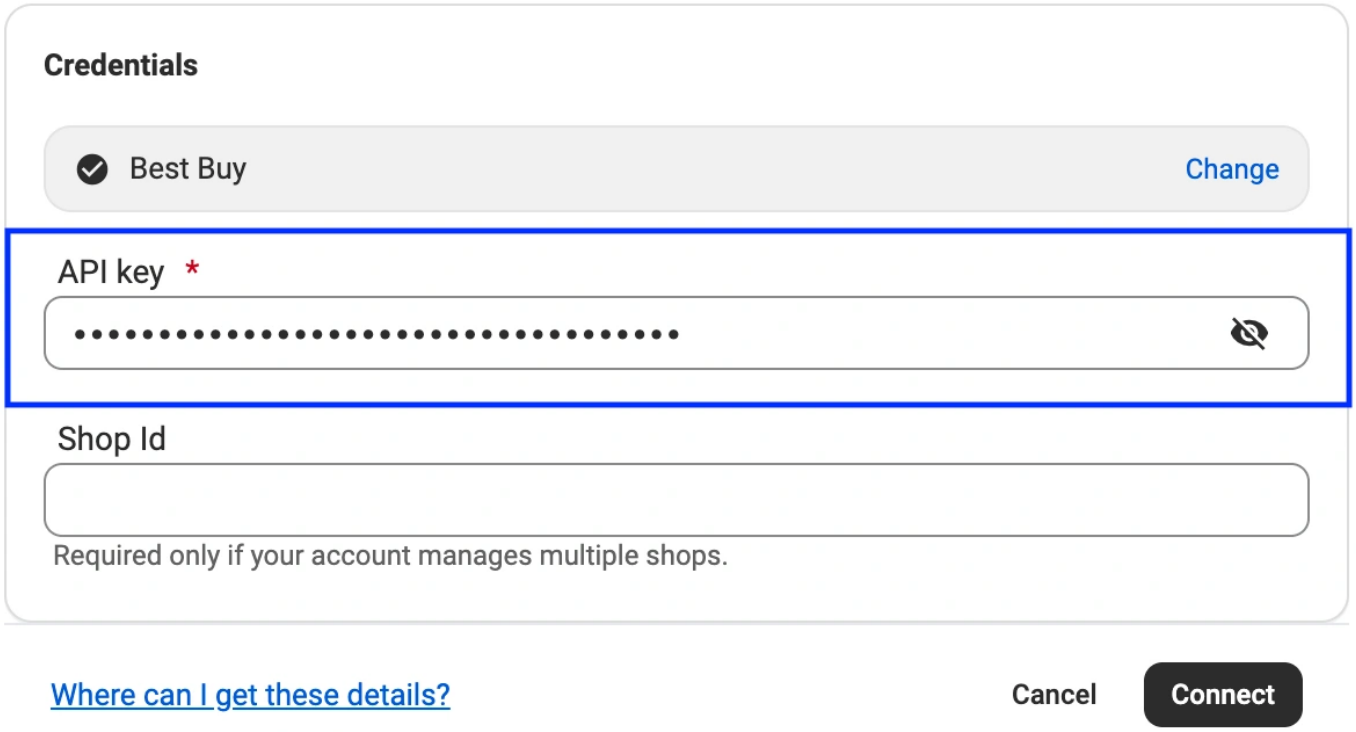

4) Navigate to the **API key** tab.

If the key already exists, click **Copy API key**.

If there's no key yet, click **Generate key**, then copy it.

5) Back in the app, paste the key into the **API key** field.

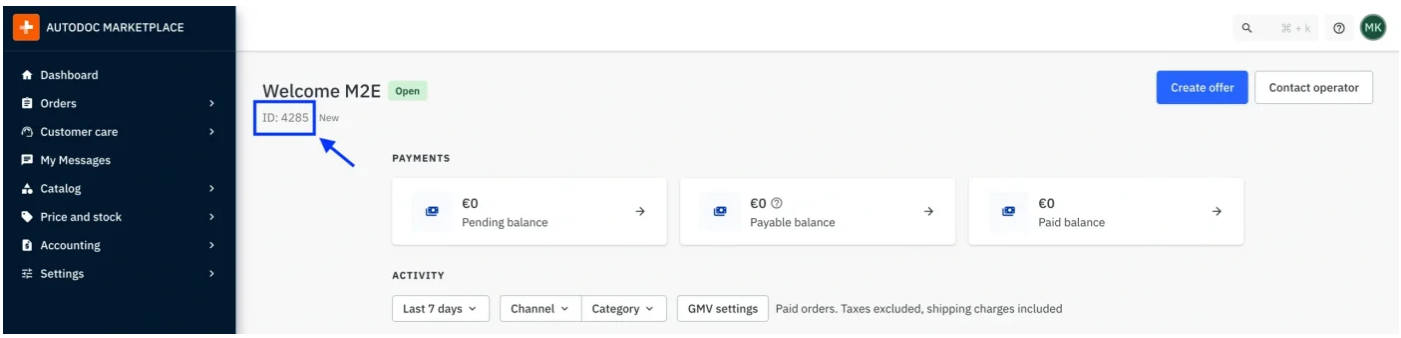

## Step 4. Enter Shop ID (optional)

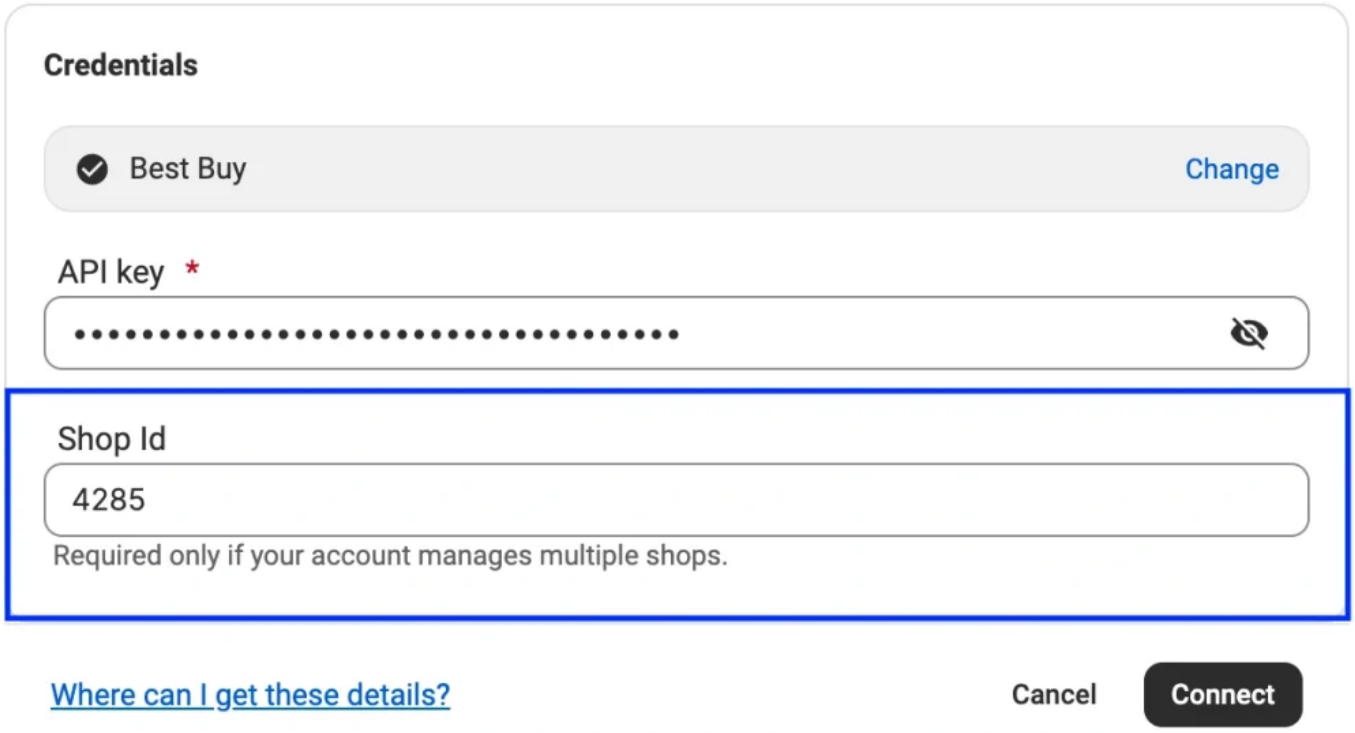

If you have multiple shops within the same Mirakl marketplace, enter your **Shop ID**.

> ℹ If you only have one shop on your marketplace, you can leave this field empty.

1) On the *Dashboard* page of your Mirakl Seller Admin, find your Shop ID.

2) Copy and paste it into the **Shop Id** field in the app.

## Step 5. Complete the connection

Click the **Connect** button. M2E will validate your credentials and establish the connection.

If the details are correct, you'll see a success message confirming that your Mirakl account is now connected.

ℹ In case you've connected your Mirakl account to M2E and later regenerate your API key in Mirakl, you'll need to update the connection. Go to *Settings* > *Sales Channels* in M2E, find your Mirakl account, and enter the new API key.

If you run into issues during the connection process, please contact our support team.
